MATTIFY! COSMETICS INTRODUCES: MATTIFY! ULTRA - THE BEST POWDER FOR OILY AND ACNE PRONE SKIN

Reno, NV -- July 15, 2010 -- If you have tried every product on the market to control your oily skin and have gotten less than stellar results, look no further than **Mattify! ULTRA** by Mattify! Cosmetics. This translucent powder is formulated to absorb 5 times its weight in oil, keeping your pores clear and your complexion matte for hours.

Formulated for both men and women, this clear face powder disappears upon contact and can be applied with a powder brush or puff. Women can wear it alone, under foundation as a primer, and over foundation for added oil control. Men can wear it to absorb excess oil and minimize redness and blemishes. The **Mattify! ULTRA** formula is designed to prevent breakouts that occur from clogged pores, soak up excess skin oils, and provide a base for long wearing makeup. If you've ever felt like oily skin and acne are ruining your look, or your life, using Mattify! ULTRA can change the way the world sees you.

Mattify! ULTRA is now available for sale, along with our traditional Mattify! Loose Powder, Bronzer, Body Shimmer, and Sparkling Mineral Eye Shadows. Each of our products contain Kaolin Clay as their base; allowing for crease-free extended wear, even on oily skin. Our products are directly comparable to many high-end brands on the market, but are offered at incredibly reasonable prices. We believe that everybody should have access to amazing products, not just those willing to pay over-exaggerated prices! Find the solution to oily skin with Mattify! Cosmetics and be sure to visit our website at <http://www.mattifycosmetics.com> to purchase products, read skin care tips and view useful application tricks! For inquiries on Mattify! products, email us at mattifycosmetics@yahoo.com
