

## Web Design is Finally Affordable and Attainable

*Who? The Company out of the Atlanta Metro area is called Fresh West Designs. Owner/Designer, Justin Hawkins looks to make beautiful websites affordable to all those who could not afford it before!*

Lithonia, GA ([BizHWY](http://www.bizhwy.com)) July 30, 2010 - In this day and age Websites have become a necessary expense for any business that expects to last through that first rough year. Not to say that word of mouth is not effective, because it can be. But unfortunately when choosing where a consumer wants to give his or her business, the company with the website gets the first look.

For a long time new small businesses could not afford to start out with a competitive website to help drive customers to their services. This forces them to rely on word of mouth, giving up all the business to the large corporations. For some reason \$700, \$800, and \$900 websites expenditures just wasn't in the opening budget.

But now thanks to Fresh West Designs, \$299 can get you a beautiful website complete with music and video for a small extra charge, depending on the package. Don't sleep on this wonderful opportunity! **HURRY!** You are missing new customers right now! Call or email Fresh West Designs and let us help you make your business competitive!
