

Suboxone clinic to treat addiction to pain killers Vicodin, OxyContin, Heroin & other opiates

New treatment facility for heroin & opiate detox located near you in Deerfield Beach, Florida. Opiate addiction help is now available without hospitalization.

Deerfield Beach, FL ([BizHWY](#)) September 11, 2010 - Many people are addicted to pain killers and are unable to discontinue them because of fear of the severe withdrawal symptoms. No one ever decides they want to become a drug addict, but it happens. Opiate addiction help is now available in Deerfield beach, Florida - without hospitalization.

Suboxone is a medication prescribed by licensed physicians to alleviate the withdrawal symptoms of pain killers to allow the person live a normal, pain-free life. Opiate detox can be a challenging experience emotionally, and physically. Its should not be attempted without professional help.

The medical staff at The Opiate Dependency Treatment Center is extremely patient, friendly and willing to accommodate patient requirements to the best of our ability. Dr. Blumberg leads this medical team, he is a board certified family physicians licensed to prescribe Suboxone in his home office of Deerfield beach, Florida.

Treatment is now available with Suboxone without having to be hospitalized. Withdrawal symptoms can be controlled with minimal discomfort.

Same day consultations are available and patients are treated by their personal physicians. Patients often report feeling better after their first day of treatment. For consultation, new patients can call the Opiate Dependency Treatment Center or visit their website.
