

## **SalsaHook.com has some big changes coming!**

*SalsaHook.com is one of the most prominent salsa information websites created to help promote salsa events, clubs, instructors, and lessons. In 2011, some big and very exciting upgrades are coming!*

Los Angeles, CA ([BizHWY](http://www.bizhwy.com)) April 28, 2011 - SALSA WEB TECHNOLOGY -- [SalsaHook.com](http://www.salsahook.com) launched in the first months of 2010 as a tool that aimed to help salsa lovers know the location, time, and date of salsa events and dance lessons around their geographical area. While it has mostly emerged within the Los Angeles area as a major source of information, it has also touched various other geographical areas, such as San Diego, San Francisco, Texas, Florida, and many other cities across the US where salsa is predominant.

Promoters can sign up and freely post event information for all their promotions, so that visitors to the site (in the thousands) can view it and can be up-to-date with what's happening around their city. Instructors can sign up and freely add themselves and all their classes to the salsa instructor database.

The SalsaHook.com site is built in a way that provides all its visitors with the information pertinent to any event they wish to see, with sharing options, and with easy-to-use Google maps directions tools. This is an extraordinary advantage for salsa dancers interested in trying out new venues, new dancers in a salsa scene, or tourists from other countries wishing to go dance in a particular city.

Some salsa lovers have also demonstrated a true passion for Salsa dancing by posting as many events as possible in their respective geographical area by their own will and desire. They do it simply because they love it! And be assured, SalsaHook.com exists only because we LOVE salsa dancing and music!

In 2011, SalsaHook.com will see the following changes:

- A completely new and more comprehensive interface design that promotes events, articles, and user activity much better.

Streamlining of information and data

- A completely re-designed and updated user panel and more user-friendly features
- Renovated tools that will help promote events, instructors, bands, and lessons much better!

We are excited about what 2011 will bring to the world of SalsaHook.com and its loyal userbase. Expect nothing less than the very best!
