

## **NEW Wholesale Pest Control Distributorship in Sarasota FL!**

*A NEW Pest Control Distributorship & Equipment Service Center in the Northgate Industrial Park Serving the needs of the "walk in" pest control operator or "Do It Yourself" needs.*

Sarasota, FL ([BizHWY](http://www.bizhwy.com)) July 6, 2011 - We started this business on April 1st 2011 to serve the needs of the "walk in" type customer in the Pest Control Service Industry. A void in this segment of the market was formed when Residex pulled out of this area in June 2010, leaving this segment of the market with no viable option for "walk in" service. We primarily serve the Bradenton -Sarasota FL areas as these were the primary areas that were abandoned by Residex 1 year ago in June. We are available to our customers 7 days per week, as well as early or late hours as needed all week long. We have a fully equipped equipment service center where we can service all types of equipment used in the pest control industry, and lawn services industry as well.
