

Belmont Franklin Group Focuses On The Health Of Your Business

NO MATTER WHAT BUSINESS YOU ARE IN, IT TAKES MONEY TO GROW. THAT IS WHY WE HAVE CREATED A WIDE RANGE OF OPTIONS FOR YOU TO BORROW MONEY AND FUEL YOUR BUSINESS! WE BELIEVE IN YOU!

The Woodlands, TX ([BizHWY](http://www.bizhwy.com)) April 1, 2015 - The Belmont Franklin Group focuses on the health of your business - not your personal credit score.

At The Belmont Franklin Group, our goal is providing business owners access to small business loans and services that help them succeed in today's fast-paced marketplace. The minimum qualifications for our loans are less demanding than banks and traditional lending institutions. Where other institutions will look for a reason to deny loan applications The Belmont Franklin Group look for reasons to say YES.

We offer custom-tailored solutions for ventures and established businesses which break the mold, meaning we stray away from traditional credit-based lending and we don't look to end the relationship once we've made a loan.

At The Belmont Franklin Group, we pride ourselves on building relationships with entrepreneurs from all sectors. We understand it can be a difficult time to look for money when times are tight or you have been denied a loan from other institutions.

We will take the time to understand the challenges you are facing and find a solution that is right for you. Where other institutions look for a reason to deny an application, we look for a reason to say YES.

Why we're better

At The Belmont Franklin Group, our mission is to build lasting partnerships. Having worked with small businesses for years, we have profound respect for the men and women who take the risk to start the operations that are the foundation of the American economy. We want to grow with you and help you find the solutions that are best for your business.

The Belmont process takes lending to the next level, generating organic models which can accommodate the cyclical nature of business and sales. This can prove extremely helpful and valuable to business owners who have seasonal products or services, meaning that there is no set payment, but rather a flexible plan that accommodates the cash flow of the business.

Unlike traditional lenders, The Belmont Franklin Group works with many lenders who approves businesses by looking at real life data, not just a credit score.

Faster than a bank

The traditional loan process poses a number of problems for small businesses operating in today's lightning-fast business environment. The Belmont Franklin Group believe there is a better way. We know that today's business owners need to be able to act quickly. Which is why we can provide approvals in as little as 24 hours. Belmont understands, when you need a small business loan, you can't always afford to wait days or weeks for an approval.

The Belmont Franklin Group wants to be your partner for the long haul. When we review your application, we will approve you for the maximum amount possible. Even if you do not need the full amount you are approved for, you can rest easy knowing additional capital is at your fingertips should the need ever arise.

As you develop a positive history with us, we will work with you to expand your maximum line of credit. You will never need to deal with the hassles of a traditional bank again. Think of us as your private banker who actually likes working with businesses just like yours.

Simple application process

The minimum qualifications for our loans are less demanding than banks and traditional lending institutions. We require only a short checklist of information that includes, among other things, bank and merchant statements. No financial statements or tax returns required.

Benefits of The Belmont Franklin Group

The Belmont Franklin Group is committed to the business community and will never stop finding ways to help you grow. We promise you:
