Ann Arbor, MI ([BizHWY](#)) July 25, 2017 - Hair Essentials Salon Studios offers A variety of Sew-ins/hair weave service and options

Microlinks

Microlinks is a great option to go with if you are looking for additional length, volume or color without the use of glue or braids.

Individual

Individual microlinks are achieved by connecting groups of your natural hair with the weave by usage of the links. Although slightly different from the weft method, individual microlinks still offer a natural look and numerous styling options.

Keratin Infusion

Keratin Infusion comes in two different options hot fusion and cold fusion. This look gives you the ability to add length, color and still have a natural style.

Hair Fusion Strand-by-Strand

You can add fullness length or highlights to your hair with fusion. We use pre-dipped keratin tips because it is healthier for your hair and doesn't damage like acrylic does. It can be applied and removed easily without damage or hair stress.

Weft

With the weft method, the hair is sewn onto the links to achieve a natural look with versatile style options

Tape Extensions

Tape-In is one of the newest methods. The attachment points of the tape-in method are seamless and doesn't damage the hair.

Clip-Ins

Clip-in is another awesome way to add length and have versatile style options. The hair is installed via a clip and it is very easy to maintain

Sew-in Weave

*Partial sew ins to add fullness (only add a few braids and tracks)

*Full sew ins to add length and fullness (The full sew in is done with the whole head braided, using a closure)

Or leave out a portion of your hair for a natural look .You should visit your stylist for maintenance for shampoo and conditioning .With proper care this style can be worn up to 2 months.

(Quick) Weave:

Are you looking for a more affordable approach .natural a "quick weave" is the what you desire. Quick weaves place no extra pull or tug on the hair natural hair and without the braiding and sewing and you get the look you want in less the time.
