## Belview Floorcare - Providing Best Carpet Cleaning Services in Rochester, NY

*In 2015, David Belliveau who was an active Board Director of the Fairport Perinton Chamber of Commerce started his professional carpet cleaning company, Belview Floorcare.*

Rochester, NY ([BizHWY](#)) April 19, 2018 - In 2015, David Belliveau who was an active Board Director of the Fairport Perinton Chamber of Commerce started his professional carpet cleaning company, [Belview Floorcare](#). He started this company so that homeowners and business owners in the Rochester NY area would have clean carpets and clean homes and offices which would be provided by Belview Floorcare.

Many people don't understand the importance of having a professional steam cleaning done for their carpeting. They believe that vacuuming alone is enough to keep the carpet clean, and even though vacuuming is important, it doesn't remove the dirt and grime from your carpet fibers. Only Belview Floorcare can provide carpet cleaning services to do that. A steam cleaning should be done once a year or once every six months if you have little kids and/or pets.

However, the good news is that there are tips on how to maintain your carpet so you can keep your carpet clean in between professional cleanings. This is why it is important to vacuum, and it is important to act fast when a spill happens to prevent a stain by using a white rag with water, white vinegar, and dish soap to blot up the spill right away so it does not turn into a stain.

However, sometimes stains will happen regardless whether the spill was not cleaned correctly, or a spill was not caught quickly or missed and it turned into a stain.

If you have pets and they went to the bathroom on your carpet and did not catch it, or if you spilled coffee, tea, wine, or your kid got sick and there are left over stains-don't worry. It can be cleaned. All you have to do is take a spray bottle and put 1/4 cup of white vinegar, mix it with dish soap and fill it up with water. Be sure to spray the affected area on the carpet. Allow it to soak for 5 to 10 minutes and then take a dry white rag and blot, never rub because that will embed the stain further into the carpet which is not what you want.

Then what you can do is after drying the area will still be damp, and then you will want to sprinkle baking soda on the area to remove odors and to extract the rest of the stain and dry the area up. Let it sit for 15 minutes and then vacuum the area up and the stain should be gone. If not, then you will need to rinse and repeat.

By utilizing these stain removal tips, you will be able to maintain your carpet properly. Belview Floorcare also provides professional tile and grout cleaning, upholstery cleaning, concrete cleaning as well as epoxy floor installation. If you live in the Rochester area and need professional carpet cleaning done, or any of the other services they provide, contact them and they will get back to you right away with a free and no-obligation quote. They also provide a 30 Day Satisfaction Guarantee because if you are happy, they are happy!
